HEBRISH · CONSENT FORM

Permission to use material for training

For an organisation or a person who holds the rights to recorded material, such as a lecture series, shiurim, conference talks, a podcast or a course, allowing Hebrish to use one resource or a whole series. This is a fillable PDF. Fill it in on screen, sign it (type your full name, or add a digital signature in any PDF reader), and email it to info@hebrish.app. Or print it, sign it by hand and send a scan.

What you are agreeing to

- **Who.** Hebrish (hebrish.app) is a technical project by Daniel Rosehill, and Daniel Rosehill is the other party to this consent. There is no fee either way: you are not paid, and you pay nothing.
- **Training.** The recordings, and transcripts made from them, may be used to train, test and improve Hebrish speech models. Those models may be published and licensed to others, including under commercial licences (hebrish.app/terms). A trained model does not contain or reproduce the recordings.
- **Publishing.** The recordings are published only if the rights holder ticks the open-dataset option below. Then they may be released, with their transcripts, in Hebrish's public datasets under CC-BY-4.0, which lets anyone reuse them with credit.
- **Withdrawing.** You can withdraw this consent at any time by writing to info@hebrish.app. The material is then not used in any new training round and is removed from Hebrish's datasets. Models already trained, and copies of a dataset others downloaded under CC-BY-4.0 before removal, cannot be recalled.
- **Your details.** Your name and contact details are kept only to record this consent and to reach you about it. They are not published unless you choose to be credited.

Rights holder

Organisation name (or "none" for an individual)

Website

Name of the person signing

Their role or title

Email

Phone (optional)

The material

☐ A single resource (one recording, video or file)

☐ A series or collection (for example a lecture series or a podcast feed), including future episodes unless stated below

Title or name of the resource or series

Where it is: URLs, a channel or feed, or how it will be sent

Anything excluded, or any limits (dates, episodes, speakers)

What may be done with it

- [ ] Hebrish may use this material to train, test and improve its speech models.

- [ ] Hebrish may also publish this material, or excerpts of it, with transcripts in its open datasets under CC-BY-4.0. (Leave unticked for training only.)

- [ ] Credit the rights holder where the data is credited.

Credit line, e.g. "Lectures courtesy of …"

Confirmations

- [ ] I am authorised to give this permission on behalf of the rights holder named above.

- [ ] The rights holder owns or controls the rights needed for this use, including the speakers' agreement to their recordings being used this way.

Date (YYYY-MM-DD)
